# Portion Guide

A 2 tiered cake serves 72 portions

A 3 tiered cake serves 148 portions

A 4 tiered cake serves 204 portions

The design and visual aesthetics play a crucial role in determining the overall presentation and portion sizes of your wedding cake

Certain designs stand out best when executed as smaller cakes. In such instances, additional servings can be provided through a supplementary kitchen cake, guaranteeing that every guest has the opportunity to enjoy a slice of the delightful cake.

# Pricing Guide:

Our bespoke cakes are designed to meet your unique vision and taste preferences. Each creation is a work of art, tailored specifically to your event. Here's a brief overview of our starting prices for tiered cakes:

Please note that delivery and setup costs are quoted separately to ensure your cake arrives safely and is beautifully presented. We invite you to contact us for a personalised quote that reflects your specific needs and desires for your special day.

# Design Process

This 3 tier cake was made in fondant with a textured stencil on the bottom tier and adorned with delicate pearls.

Decorated in quality silk flowers to match the colour scheme.

I also offer cakes featuring the buttercream technique, which can be crafted in various styles.

However, they pose a challenge during the summer months. As with all my designs, I provide delivery and assembly services at the venue.

Incorporating a shorter tier into your wedding cake can add height and elegance without increasing the number of servings. These are often included as dummy cakes or false tiers in the final design.

A refundable deposit is required for the spacer
